NOTE: Abstract Index follows Author Index

A

Abducens nerve

- Aspirin use and the prevention of acute ischemic cranial nerve palsy, 367
- Bilateral sixth nerve palsy associated with MDMA ("ecstasy") abuse, 408

Abscess

- Bacterial subretinal abscess: a case report and review of the literature, 778
- Intralenticular *Candida* species abscess in a premature infant, 390

Acinetobacter calcoaceticus

- Postoperative endophthalmitis caused by sequestered *Acinetobacter calcoaceticus*, 388

Acyclovir

- Intravitreal antiviral injections as adjunctive therapy in the management of immunocompetent patients with necrotizing retinopathy, 811

Adrenergic beta-antagonists

- Beta-blocker eyedrops and nocturnal arterial hypotension (correspondence), 697

Adrenomedullin

- Increased expression of adrenomedullin mRNA in the tissues of intraocular and orbital tumors, 555

Aging

- Location, substructure, and composition of basal laminar drusen compared with drusen associated with aging and age-related macular degeneration, 205

Alcaligenes xylosoxidans

- Alcaligenes xylosoxidans* and *Propionibacterium acnes* postoperative endophthalmitis in a pseudophakic eye, 813

Allopurinol

- Antioxidant agents in the treatment of Graves' ophthalmopathy, 618

American Journal of Ophthalmology

- The AJO: electronic augmentation on the internet (editorial), 90

Amyloidosis

- Primary localized conjunctival amyloidosis presenting with recurrence of subconjunctival hemorrhage, 245

Analgesia

- Postoperative analgesia by reinjections of local anesthetic through an indwelling retrobulbar catheter, 54

Anemia, sickle cell

- Idiopathic polypoidal choroidal vasculopathy and sickle cell retinopathy, 544
- Spontaneous central retinal artery occlusion in hemoglobin sickle cell disease, 680

Aneurysm

- Indocyanine green angiography in the diagnosis of retinal arterial macroaneurysms associated with submacular and preretinal hemorrhages: a case series, 33

Angiography

- Comparison of fluorescein angiography and indocyanine green angiography for imaging of choroidal neovascularization in hemorrhagic age-related macular degeneration, 495

The emerging role of magnetic resonance angiography in the management of patients with third nerve palsy (correspondence), 115

Hold up of dye in the arm during fluorescein angiography: a quantitative demonstration, 551

Indocyanine green angiographic features of choroidal rupture and choroidal vascular injury after contusion ocular injury, 38

Indocyanine green angiography in the diagnosis of retinal arterial macroaneurysms associated with submacular and preretinal hemorrhages: a case series, 33

Lutetium texaphyrin (lu-tex): a potential new agent for ocular fundus angiography and photodynamic therapy, 353

Anterior chamber

Anterior chamber depth and complications during cataract surgery in eyes with pseudoexfoliation syndrome, 281

Caterpillar setae in the deep cornea and anterior chamber, 384

Removal of corneal foreign bodies that project into the anterior chamber: use of a suture needle, 801

Antioxidants

Antioxidant agents in the treatment of Graves' ophthalmopathy, 618

Antiphospholipid syndrome

Multiple retinal arteriolar occlusions associated with coexisting primary antiphospholipid syndrome and factor V Leiden mutation, 106

Apraxias

Congenital ocular motor apraxia with autosomal dominant inheritance, 820

Aqueous humor

Herpes simplex virus DNA identification from aqueous fluid in Fuchs heterochromic iridocyclitis, 672

Pars plana vitrectomy during cataract surgery for prevention of aqueous misdirection in high-risk fellow eyes, 387

Arcus senilis

Arcus senilis and mortality in a population with diabetes, 676

Aspergillus flavus

Aspergillus flavus keratitis after laser in situ keratomileusis, 802

Aspirin

Aspirin use and the prevention of acute ischemic cranial nerve palsy, 367

Australia

Pseudoexfoliation syndrome in Australian adults, 629

Autoimmunity

The human leukocyte antigen complex and chronic ocular inflammatory disorders, 235

Azathioprine

Immunomodulatory therapy for chronic tubulointerstitial nephritis-associated uveitis, 764

B

Biological markers

Tear and serum soluble leukocyte activation markers in conjunctival allergic diseases, 151

Albinism, ocular

Ocular albinism: evidence for a defect in an intracellular signal transduction system, 126

Alkalies

Effect of Na-hyaluronan on stromal and endothelial healing in experimental corneal alkali wounds, 566

Alternative medicine

Articles on complementary medicine in the mainstream medical literature: an investigation of MEDLINE, 1966 through 1996, 123

Alzheimer disease

Is age-related maculopathy associated with Alzheimer disease? The Rotterdam study, 415

Amblyopia

Idiopathic intracranial hypertension. Relationship to depression, anxiety, and quality of life, 831

Amyloid beta-protein precursor

Optic nerve damage in shaken baby syndrome. Detection by β -amyloid precursor protein immunohistochemistry, 831

Anticonvulsants

Vigabatrin, a gabaergic antiepileptic drug, causes concentric visual field defects, 277

Visual dysfunction in patients receiving vigabatrin: clinical and electrophysiologic findings, 565

Antimetabolites, antineoplastic

Collagen type I and III synthesis by Tenon's capsule fibroblasts in culture: individual patient characteristics and response to mitomycin C, 5-fluorouracil, and ascorbic acid, 833

Anxiety

Idiopathic intracranial hypertension. Relationship to depression, anxiety, and quality of life, 831

Aqueous humor

Corneal endothelial changes and aqueous flare intensity in pseudoexfoliation syndrome, 568

Arthritis

Ocular manifestations in children and adolescents with Lyme arthritis, 124

Ascorbic acid

Collagen type I and III synthesis by Tenon's capsule fibroblasts in culture: individual patient characteristics and response to mitomycin C, 5-fluorouracil, and ascorbic acid, 833

Ataxia telangiectasia

Ocular motor abnormalities in ataxia telangiectasia, 279

Automobile driving

Epilepsy surgery, visual fields, and driving: a study of the visual field criteria for driving in patients after temporal lobe epilepsy surgery with a comparison of Goldmann and Esterman perimetry, 704

B

Biomedical engineering

Functional human corneal equivalents constructed from cell lines, 567

Biometry

Does convergence, not accommodation, cause axial-length elongation at near? A biometric study in teens, 279

Blacks

Mechanisms of retinal arterial occlusive disease in African American and Caucasian patients, 125

Blindness

Mutations in a new photoreceptor-pineal gene on 17p cause Leber congenital amaurosis, 834

The neurological basis of conscious color perception in a blind patient, 565

Sleep disorders in children with blindness, 278

Blood group incompatibility

ABO antigen blood-group compatibility and allograft rejection in corneal transplantation, 566

Blood vessels

Vascular channel formation by human melanoma cells in vivo and in vitro: vasculogenic mimicry, 418

Blue Mountains Eye Study

Cataract and age-related maculopathy: the Blue Mountains Eye Study, 566

C

Carcinoma, squamous cell

Intraocular invasion of conjunctival squamous cell carcinoma in five patients. The 1998 Pan American Lecture, 277

Cataract

Cataract and age-related maculopathy: the Blue Mountains Eye Study, 566

Cataract extraction

Cost-effectiveness of public-funded options for cataract surgery in Mysore, India, 701

Two clinical trials of an intraocular steroid delivery system for cataract surgery, 703

The value of routine preoperative medical testing before cataract surgery, 701

Cell count

Effect of conjunctival structure and inflammatory cell counts on intraocular pressure after trabeculectomy, 567

Cell line

Functional human corneal equivalents constructed from cell lines, 567

Cerebral arteries

Posterior cerebral artery territory infarcts in the New England Medical Center Posterior Circulation Registry, 125

Child

Ocular manifestations in children and adolescents with Lyme arthritis, 124

Sleep disorders in children with blindness, 278

Choroid neoplasms

Transpupillary thermotherapy as primary treatment for small choroidal melanomas, 832

Collagen

Collagen type I and III synthesis by Tenon's capsule fibroblasts in culture: individual patient characteristics and response to mitomycin C, 5-fluorouracil, and ascorbic acid, 833

Color perception

The neurological basis of conscious color perception in a blind patient, 565

Communication

Resolving disagreements in the patient-physician relationship: tools for improving communication in managed care, 276

Conjunctiva

Effect of conjunctival structure and inflammatory cell counts on intraocular pressure after trabeculectomy, 567

Indeterminate melanocytic proliferations of the conjunctiva, 702

Conjunctival neoplasms

Contact lenses

Giant papillary conjunctivitis in frequent-replacement contact lens wearers: a retrospective study, 703

Convergence, ocular

Does convergence, not accommodation, cause axial-length elongation at near? A biometric study in teens, 279

Cornea

Acute hydrops in the corneal ectasias: associated factors and outcomes, 702

Effect of Na-hyaluronan on stromal and endothelial healing in experimental corneal alkali wounds, 566

Functional human corneal equivalents constructed from cell lines, 567

Corneal transplantation

ABO antigen blood-group compatibility and allograft rejection in corneal transplantation, 566

Corticosteroid therapy

Effects of high-dose inhaled corticosteroids on plasma cortisol concentration in healthy adults, 123

Cost-benefit analysis

Cost-effectiveness of public-funded options for cataract surgery in Mysore, India, 701

D

Dark adaptation

Aging and dark adaptation, 125

Depression

Idiopathic intracranial hypertension. Relationship to depression, anxiety, and quality of life, 831

Dexamethasone

Two clinical trials of an intraocular steroid delivery system for cataract surgery, 703

Diabetic nephropathies

Cataract and age-related maculopathy: the Blue Mountains Eye Study, 566

Is age-related maculopathy associated with Alzheimer disease?
The Rotterdam study, 415

Managed care programs

Resolving disagreements in the patient-physician relationship:
tools for improving communication in managed care, 276

Melanocytes

Indeterminate melanocytic proliferations of the conjunctiva,
702

Melanoma

Transpupillary thermotherapy as primary treatment for small
choroidal melanomas, 832

Vascular channel formation by human melanoma cells in vivo
and in vitro: vasculogenic mimicry, 418

Meta-analysis

Random-effects meta-analyses are not always conservative, 123

Mitomycin C

Collagen type I and III synthesis by Tenon's capsule fibroblasts
in culture: individual patient characteristics and response
to mitomycin C, 5-fluorouracil, and ascorbic acid, 833

Multiple sclerosis

Isolated trochlear nerve palsy in patients with multiple sclerosis,
126

Mummies

The presence of ancient human T-cell lymphotropic virus type
I provirus DNA in an Andean mummy, 567

Myopia

A far-sighted view of myopia, 124

N

Near fixation

Does convergence, not accommodation, cause axial-length
elongation at near? A biometric study in teens, 279

Neoplasms

Intraocular invasion of conjunctival squamous cell carcinoma
in five patients. The 1998 Pan American Lecture, 277

Transpupillary thermotherapy as primary treatment for small
choroidal melanomas, 832

Vascular channel formation by human melanoma cells in vivo
and in vitro: vasculogenic mimicry, 418

O

Oculomotor muscles

Achieving success with the silicone expander for overacting
superior obliques, 834

Ophthalmologists

Ophthalmologists with conjunctivitis: are they fit to work?, 415

Optic nerve

Optic nerve damage in shaken baby syndrome. Detection by
 β -amyloid precursor protein immunohistochemistry, 831

Orientation

Involvement of visual cortex in tactile discrimination of orien-
tation, 279

P

Perimetry

Epilepsy surgery, visual fields, and driving: a study of the visual
field criteria for driving in patients after temporal lobe
epilepsy surgery with a comparison of Goldmann and
Esterman perimetry, 704

Phacoemulsification

Retinopathy progression and visual outcomes after phacoemul-
sification in patients with diabetes mellitus, 832

Physician-patient relations

Resolving disagreements in the patient-physician relationship:
tools for improving communication in managed care, 276

Physicians

Ophthalmologists with conjunctivitis: are they fit to work?, 415

Why don't physicians follow clinical practice guidelines? A
framework for improvement, 276

Pigment dispersion

Combined exfoliation and pigment dispersion: an overlap
syndrome, 834

Practice guidelines

Why don't physicians follow clinical practice guidelines? A
framework for improvement, 276

Preoperative care

The value of routine preoperative medical testing before cata-
ract surgery, 701

Pseudoexfoliation

Corneal endothelial changes and aqueous flare intensity in
pseudoexfoliation syndrome, 568

Q

Quality of life

Idiopathic intracranial hypertension. Relationship to depres-
sion, anxiety, and quality of life, 831

Vision and quality-of-life, 833

R

Random allocation

Random-effects meta-analyses are not always conservative, 123

Research

Challenges to human subject protections in US medical re-
search, 418

Researchers and regulators reflect on first gene therapy death,
701

Retina

Juvenile retinoschisis: a model for diagnostic testing of X-linked
ophthalmic disease, 833

Retinal artery occlusion

Mechanisms of retinal arterial occlusive disease in African
American and Caucasian patients, 125

Retinitis pigmentosa

Mutations in a human homologue of *Drosophila crumbs* cause
retinitis pigmentosa (RP12), 418

S

Screening

Glaucoma awareness and screening uptake in relatives of people
with glaucoma, 568

Shaken baby syndrome

Optic nerve damage in shaken baby syndrome. Detection by
 β -amyloid precursor protein immunohistochemistry, 831

Signal transduction

Ocular albinism: evidence for a defect in an intracellular signal
transduction system, 126

Silicone

Achieving success with the silicone expander for overacting
superior obliques, 834

Sleep disorders

Sleep disorders in children with blindness, 278

Steroids

Two clinical trials of an intraocular steroid delivery system for cataract surgery, 703

T**Tactile perception**

Involvement of visual cortex in tactile discrimination of orientation, 279

Temporal lobe

Epilepsy surgery, visual fields, and driving: a study of the visual field criteria for driving in patients after temporal lobe epilepsy surgery with a comparison of Goldmann and Esterman perimetry, 704

Tenon's capsule

Collagen type I and III synthesis by Tenon's capsule fibroblasts in culture: individual patient characteristics and response to mitomycin C, 5-fluorouracil, and ascorbic acid, 833

Trabeculectomy

Effect of conjunctival structure and inflammatory cell counts on intraocular pressure after trabeculectomy, 567

Trochlear nerve

Isolated trochlear nerve palsy in patients with multiple sclerosis, 126

V**Vigabatrin**

Vigabatrin, a gabaergic antiepileptic drug, causes concentric visual field defects, 277

Visual dysfunction in patients receiving vigabatrin: clinical and electrophysiologic findings, 565

Visual field defects associated with vigabatrin therapy, 565

Virus diseases

The presence of ancient human T-cell lymphotropic virus type I provirus DNA in an Andean mummy, 567

Vision disorders

Visual dysfunction in patients receiving vigabatrin: clinical and electrophysiologic findings, 565

Visual acuity

Rapid improvement in the acuity of infants after visual input, 278

Retinopathy progression and visual outcomes after phacoemulsification in patients with diabetes mellitus, 832

Vision and quality-of-life, 833

Visual cortex

Involvement of visual cortex in tactile discrimination of orientation, 279

Visual fields

Epilepsy surgery, visual fields, and driving: a study of the visual field criteria for driving in patients after temporal lobe epilepsy surgery with a comparison of Goldmann and Esterman perimetry, 704

Vigabatrin, a gabaergic antiepileptic drug, causes concentric visual field defects, 277

Visual field defects associated with vigabatrin therapy, 565

Vitamin A

Serum vitamin A concentration is elevated in idiopathic intracranial hypertension, 278

W**Wound healing**

Collagen type I and III synthesis by Tenon's capsule fibroblasts in culture: individual patient characteristics and response to mitomycin C, 5-fluorouracil, and ascorbic acid, 833

Effect of Na-hyaluronan on stromal and endothelial healing in experimental corneal alkali wounds, 566

Wounds and injuries

Air bags and ocular injuries, 702
